No. 2017-01-EN  
Berlin, January 2017

## Optris expands in Berlin to more than 3000 square meters

Optris develops, manufactures and distributes infrared thermometers and infrared cameras since 2003 from its company headquarters in Berlin. The company started with premises sized 300 m<sup>2</sup>. Since Januar 2017, Optris' premises comprise 3000 m<sup>2</sup>.

„The spatial expansion reflects the company's development during the last years. I am delighted to see our products in applications all over the world“, explains Ulrich Kienitz PhD, CEO of Optris. Optris employs more than 100 members of staff and works with distributors all over the world.
