Optris reduces price of the optris PI160 infrared camera

Berlin, 01 June 2011. The optris PI thermal imager will be named optris PI160 starting from 1st June 2011. At the same time, the price of the infrared online camera will be reduced by round about 30% down to 2.950 Euro.

The optris PI160 is based on an innovative, small detector with 160 x 120 pixel. Thermal processes can be captured with 120 pictures per second (120 Hz) and are measurable starting from a size of 0.5 mm.

The optris PI is one of the world's smallest thermal imager (size: 45 x 45 x 62 mm) and weighs 250 gram including the lens and cable.

Optris GmbH

Technology company Optris GmbH is specialized in the development, production and sales of non-contact temperature measurement via infrared. The product range covers portable infrared thermometers, stationary infrared industry thermometer as well as infrared cameras and calibration sources. All pyrometer set new benchmarks for the application at OEM solutions and multiple applications.
